

Logo Artist

Uhlig LLC is a fast-growing, advanced-technology publishing company specializing in content-rich documents and periodicals that are delivered in web, print and electronic forms. Based on its proprietary, Internet-based software platforms, Uhlig LLC provides products and services to customers throughout North America, and is a national leader in the field of cross-media, variable-content publishing. Ambitious, imaginative individuals who embrace change and enjoy expanding the boundaries of traditional design and communication will thrive in our fast-paced, innovation-centered culture.

Uhlig LLC is offering an exciting opportunity for a logo graphic artist with strong Adobe Illustrator skills.

Job Description:

Successful candidates will be a wizard with the Illustrator pen tool, able to simplify shapes and create clean, editable vector files. The ability to identify typefaces and sample colors is also a requirement. This individual will be recreating and/or redrawing customer logos. In addition to excellent technical knowledge in using Adobe Illustrator to create vector logo artwork, candidates should have a working knowledge Adobe Acrobat (Pre-press and PDF Proofs); Adobe InDesign (multiple-page publications) and Adobe Photoshop (image editing).

Experience

Candidates must have strong analytical skills, an eye for detail and excellent organizational and communication skills. They should possess the ability to creatively troubleshoot print-production and software-generated technical issues and to easily adapt to different workflows and production processes. Qualified candidates should be tech-savvy and have strong PC, Windows-based experience. In addition, candidates must have the ability to take direction and constructive creative criticism while keeping a positive attitude.

We provide a culture that fosters business and professional growth. We work in a modern, high-technology office environment and offer generous opportunities for continuing work-related education and career advancement. EOE
